

Borah Lacrosse Player Agreement

Lacrosse at Borah High is classified as a club sport, however, do not let the word "club" define your expectations for participation in the program. There's no doubt that we have fun, but it comes with high expectations and participation is a privilege, not a right. Borah High School Lacrosse has a Varsity team and associated coaching staff. All Borah student athletes, that are eligible under the Idaho High School Lacrosse League guidelines, are welcome to participate. Those who earn a spot on the Varsity roster will have the opportunity to earn a letter and compete for a State Championship.

Although State Championships are dreamed about by many, they are not the primary goal for the program. The importance of winning a State Championship will not be valued ahead of achieving the highest level of commitment, discipline, effort, sacrifice, character and above all teamwork. All Borah

High School Lacrosse players will be held to a higher standard both on and off the field. These expectations are listed below and follow the Borah High School Code of Conduct Handbook for consequences. Each infraction of these expectations will be addressed by your head coach, the club board and in cases involving illegal activity or school policy, the police. Please review with your coach and initial each item indicating you understand these expectations.
